

RecombinationType

```
graph LR; A[RecombinationType] --> B[RecombinationsTruthTable  
::RecombinationCrossingEachExit  
InTurnMany];
```

The diagram consists of two rectangular boxes. The first box on the left is white with a black border and contains the text 'RecombinationType'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains three lines of text: 'RecombinationsTruthTable', '::RecombinationCrossingEachExit', and 'InTurnMany'.
