

/mnt/c/course_3/CircuitGen
_Generator/src/additional
_filesTools/FilesTools.hpp

```
graph TD; A["/mnt/c/course_3/CircuitGen  
_Generator/src/additional  
_filesTools/FilesTools.hpp"] --> B[filesystem]; A --> C[fstream]; A --> D[iostream]; A --> E[string]; A --> F[vector];
```

The diagram illustrates a file path at the top, which is a header file named FilesTools.hpp. Five arrows originate from the bottom of this header file box and point to five separate boxes below it, each representing a C++ standard library header: filesystem, fstream, iostream, string, and vector.

filesystem

fstream

iostream

string

vector
